"Lucien Alexia" was inspired and created by the image of a strong, deep, imaginative, idealistic, independent, wise, unconventional, non-traditional, intuitive and fascinating woman. Hidden in every piece of this timeless collection is a reflection of an understanding that is necessary for the fast and perfect adaptation to every condition of today's modern woman.

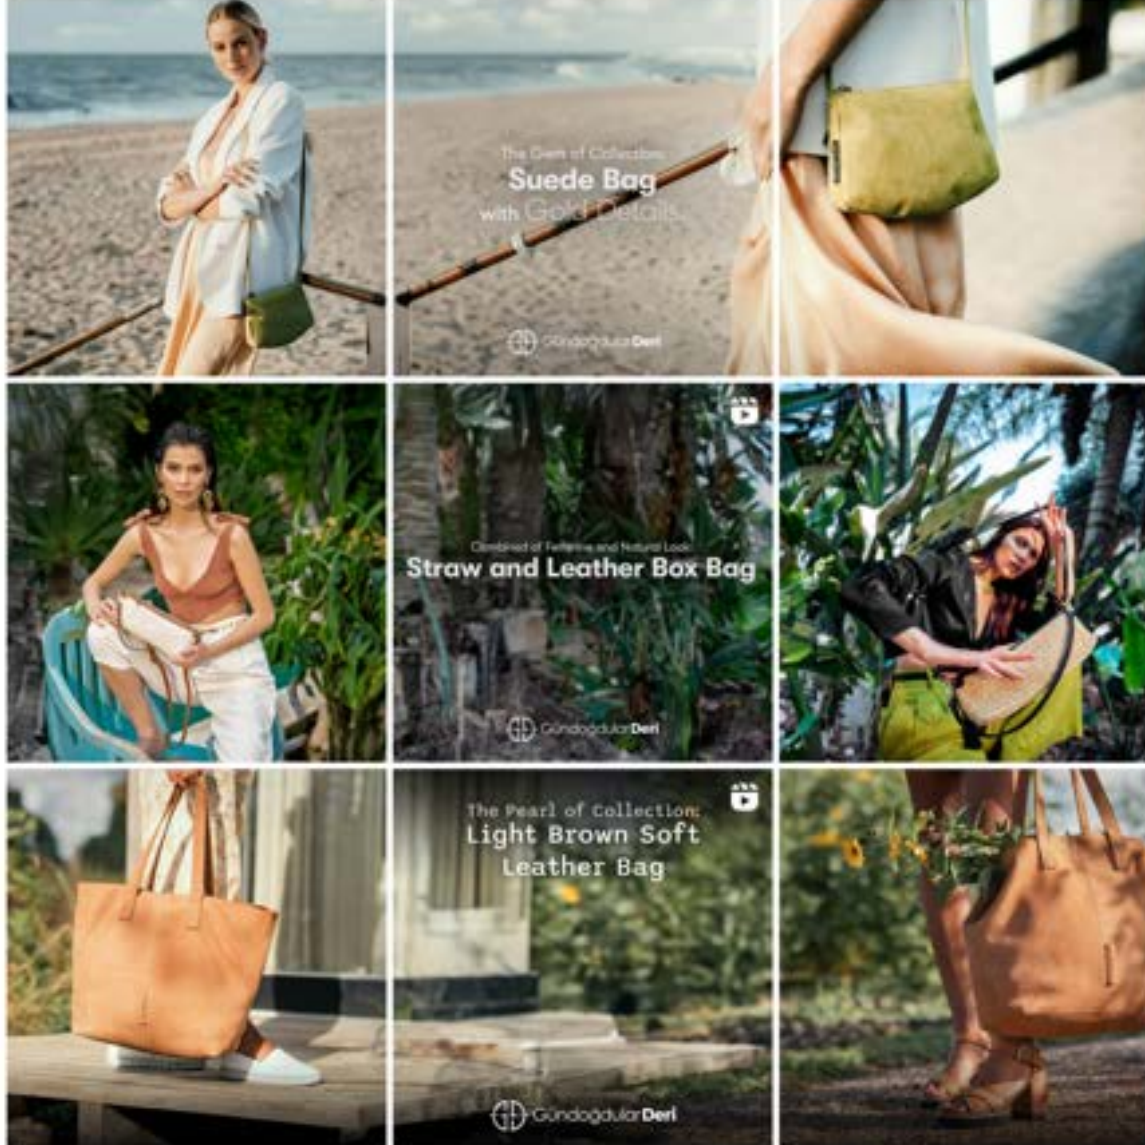

The collection "Lucien Alexia", named after "Lucien" meaning "light" in French and "Alexia" meaning "protector, defender" in Spanish, is getting ready to bring the inspiration as "protector of light" to the women of the world.
